

# Technical Data Sheet

## Insulnet™

- designed to protect plants and grass from heavy rain, hail, pests and frosts.
- a knitted fabric which allows air and moisture to travel through it at a reduced rate.
- is permeable to air and water allowing rain to travel through irrigating the plants below.
- a permeable textile allows the protected zone of the plant to breathe, reducing intense heat and humidity beneath the Insulnet™ canopies microclimate.
- tough knitted textile and may be rolled up and stored away for year after year.
- tough enough to be handled when heavy with dew or rain and is UV stabilised.
- has a 5 year ultra violet warranty (conditions apply)

Rolls sizes:

| Item # | Roll Width | Weight | Roll Length | Volume             | GSM        |
|--------|------------|--------|-------------|--------------------|------------|
| PA255  | 4m         | 17kg   | 50m         | 0.32m <sup>3</sup> | 105 +/- 2% |
| PA256  | 2m         | 17kg   | 100m        | 0.23m <sup>3</sup> | 105 +/- 2% |
